Merry Christmas from York Aviation

We would like to thank our customers for their loyal support throughout 2016. Being a privately owned, public use airport, we rely on customer support far more than our publicly owned counterparts to remain operational and to fund improvements to our airfield, all in an effort to make your experience with us a safer, more enjoyable one.

From the blizzard of early 2016, through a gorgeous summer, to the end of this year, our customers have continued to use our facility and services more and more. A growing local airport, funded by its customers, is beneficial for the local economy and the aviation community. We look forward to continued growth moving forward into a new year with the help of current and new customers who share our passion for aviation. Together, we can continue to operate and improve this extraordinary airfield, and the professionals employed at York Aviation will continue to go above and beyond to serve your needs.

On behalf of York Aviation, thank you again for your support and have a very Merry Christmas!

NOTAM-Operations at the York Airport During Snow Removal

The snow removal team at York Aviation will work diligently to clear snow from runways, taxiways and parking aprons during winter precipitation events. The following is our procedure for issuing NOTAMS during winter precipitation.

**FOLLOW US ON
FACEBOOK!**

Keep up with news and events from the York Airport. We'll feature the latest happenings, upcoming events, fun trivia and contests, lots of pictures and more. "Like" our **Page** and all future updates will load right into your Facebook feed.

**TRIVIA
CONTEST
RULES**

- 1) When the runway becomes "contaminated", a FICON (Field Condition) NOTAM will be issued. Subsequent FICON NOTAMS will be issued or updated as runway conditions change.
- 2) When the runway is being plowed, a NOTAM will be filed closing the runway. Harrisburg Tower is also notified in the event of unexpected IFR traffic.
- 3) When the plows clear the runway, conditions are evaluated, and the runway is reopened. Harrisburg Tower is then notified, and the appropriate FICON NOTAM is issued.
- 4) This process is repeated until the precipitation ends and the runway, taxiway and parking aprons are free of "contaminants".

You can always call the York Aviation FBO at 717.792.5566 for real-time field conditions.

Winter Hours of Operation

Our Winter hours of operation will go into effect as of this publication:

Monday through Friday.... 0600-1900
Weekends....0700-1700

After-hours service is available by appointment only.
Please call us at 717.792.5566 to schedule your after-

hours service during this winter season.

Toys for Tots

We're excited to announce our participation in the 2017 Toys for Tots program, which collects and distributes new, unwrapped toys as Christmas gifts to less fortunate children in the community. The collection box is located in the main terminal building. All pilots who donate a toy will receive a 10 cent per gallon discount on their next refueling, as well as a chance to win a \$75 Target gift card.

1. Responses must be submitted via e-mail to mtomlinson@york-aviation.com with contestant's name and location (city, state).

2. Upon receipt of the first fully correct response, York Aviation will notify the winner via email. This notification email must be printed and presented to our front desk in order to receive the discount.

3. Discount is valid for a single fuel transaction up to 50 gallons and must be redeemed within one year of notification.

4. You must be an active "Runway Reader" subscriber to be eligible to win.

5. A subscriber may win only one time per calendar year.

6. Responses will be accepted until the 25th of the month of that issue's challenge.

7. Employees of York Aviation and York Aviation Operators are not eligible.

-MONTHLY TRIVIA CONTEST- 50/50 CHALLENGE

**"Earn an additional 50 cents off per gallon of fuel
(up to 50 gallons) by winning our monthly challenge!"**

NOVEMBER 50/50 WINNER:

Congratulations to Dale Pritz of York, PA, for submitting the first correct answer to the November 50/50 Challenge question. Gisborne Airport on the coast of the North Island of New Zealand has a very active rail line running right across the main runway. Airport Authorities have the challenging task of coordinating aircraft and train movements. Very often, the aircraft and trains must stop for one another!

DECEMBER 50/50 QUESTION:

For many years, this 2-minute Christmas Eve Special was the most watched television event in modern history. What was it? (Hint: It is aerospace related)

--- Classified Guidelines ---

There is no charge for Runway Reader subscribers to post ads. To submit your ad:

1. Send an email to: mtomlinson@york-aviation.com with the following information:

- Product to be advertised (plane, parts, intercoms, etc.)
- Description of product and price
- Photo of the product
- Your name, city, state and email address. Phone optional.

2. We will format and post your ad in the classified section. It will run until it sells (up to 6 months).

3. Once your product is sold, please notify us immediately so we can remove it from the listings.
