Runway Rehab Update

After meeting with representatives from our project sponsor, the York County Planning Commission, our project managers, L.R. Kimball, and the PennDOT Bureau of Aviation, we have decided to delay Phase I of the runway rehab project until 2017. In an effort to eliminate multiple runway closures and reduce the impact on our tenants and customers, we are planning to complete both Phase I and Phase II of the project during the same closure period next year. Concurrent execution of both phases will provide the most efficient means to complete the

resurfacing, minimize total runway closure time, and reduce the overall cost of the project. We will provide updated information in future editions of the Runway Reader.

-MONTHLY TRIVIA CONTEST- 50/50 CHALLENGE

**"Earn an additional 50 cents off per gallon of fuel
(up to 50 gallons) by winning our monthly challenge!"**

SEPTEMBER 50/50 WINNER:

Congratulations to John Reeve, of York, PA, for submitting the first correct answer to the September 50/50 Challenge Question. The original identifier for Dulles International Airport, DIA, was later changed to IAD because it was too often confused with the identifier of neighboring National Airport, DCA. One of the rules IATA now follows when assigning airport identifiers is not to duplicate the first and second or second and third letters for airports within 200 nautical miles of each other.

OCTOBER 50/50 QUESTION:

In the spirit of Halloween, this month's 50/50 challenge question is a bit on the spooky side. Name the international airport in the United States that has two grave markers embedded right in the middle of its 9,500' runway!
